My name is Paul Blackboro, I am the Director at Vfirst accountancy. We specialise in submitting Ltd company accounts and self assessment returns for greyhound trainers. I have been an owner and an admirer of greyhounds since I was 10 years old walking the dogs on a Sunday at Hackney stadium. I have two wonderful ex racers as pets and I have been part of the industry all my life.

Having completed submissions for trainers previously it is this understanding of the industry and the financial constraints that are in the world today that has led me to start up this service.

We at Vfirst offer a low cost accountancy service to trainers and workers within the greyhound industry. We are happy to get involved at any stage of your development, right from setting up and registering through to submitting your returns.

We have experts in the fields ranging from large Ltd company operations to small operations, we also provide assistance on benefits and allowances that may be available to you as you are starting or continuing your business through more challenging times.

We also can offer business advice, appraisals, website design and marketing acumen through the wealth of experience we have gained within industry and through our specialised marketing teams.

I am not out to shock people but with HMRC fines of anything from £100 to £1000 for late or incomplete returns this is no laughing matter.

That is why I will personally arrange an affordable quote from as little as £10 per month to ensure that you are able to BE LIKE MOLLY!!! and get on with the hard and selfless work of working with greyhounds. Please e-mail or call and I will be happy to tailor a package to your personal situation.
